

ABP Breastfeeding Mother Form

The ABP provides an additional 30 minutes of scheduled break time during the examination session for breastfeeding mothers for lactation purposes.

Complete this form and submit it to the ABP 90 days before your exam date.

Please complete the fields below:

1. ABP ID #: _____
2. Name listed in your ABP Portfolio: _____
Last First Middle Initial
3. Examination: _____ Year: _____

When you receive your email from the ABP acknowledging your request, contact:

- Prometric Testing Accommodations
- Telephone: 1-800-967-1139, Option 2 - Make sure you have your eligibility ID number ready.

You will then be assigned an Advocate, who will locate and schedule you into a test center with a private space with an electrical outlet which is not a restroom, for lactating purposes. You should also arrange to store your breast pump in the administrative area of the test center if the usual locker provided for your personal belongings does not provide adequate space.

Please note: Private spaces are subject to availability, could require a candidate to travel to a non-preferred test center and are not guaranteed at every test center location. Prometric has taken diligent measures to identify locations that have a private space; however not all centers have this availability. This means that a candidate who wishes to have access to a private space may be required to travel to a center that has private space available but is not the candidate's preferred or most convenient location.

Please note: **Candidates should not:**

- Contact a test center directly to request or inquire about accommodations for breastfeeding mothers; or
- Arrive at a test center with the expectation that accommodations for nursing mothers will be provided without first submitting a request to the ABP by the deadline and completing all procedures as outlined above to request accommodations.

If you have difficulties or questions, you may contact the ABP.

Email Addresses:

- Maintenance of Certification: moc@abpeds.org
- Subspecialties: sscert@abpeds.org
- General Pediatrics: gpcert@abpeds.org
- Subspecialty In-Training Examination: site@abpeds.org

If you need to bring a medical device, medication or any other comfort aid into the testing room, please complete and submit the Personal Item Exception form by the deadline established for your examination.
