# ABP Strategic Plan FY20–FY22

## Vision

Inspiring a lifetime pursuit of learning to improve child health

## Mission

Advancing child health by certifying pediatricians who meet standards of excellence and are committed to continuous learning and improvement

## Values

- **Consistency:** Making unbiased decisions based on published ABP policies
- **Excellence:** Striving to do our best work
- **Reliability:** Living up to responsibilities and commitment
- **Transparency:** Sharing non-confidential information openly

## Guiding Principles

**Overarching Principle:** The “North Star” for the ABP is and will remain the improvement of health outcomes for children, adolescents, and young adults.

- The ABP is primarily accountable to children, from infants to young adults, and their families as it guides professional self-regulation and certifies pediatricians.
- ABP certification recognizes pediatricians who meet rigorous standards for competencies essential to improving child health.
- The ABP supports best practices for the assessments of all core competencies using tools that are fair, valid, reliable, and contribute to lifelong professional development.
- The ABP prioritizes work that the organization is uniquely positioned to do.
- The ABP strives to align opportunities for continuing certification with pediatricians’ professional practice.
- The ABP continually evaluates and improves its work based on changing trends in child health, stakeholder feedback, and advances in knowledge, assessment, technology, and care delivery.
- The ABP engages in open dialog with pediatricians, patients and families, and other members of the public.
- The ABP seeks out and respects diverse backgrounds, experiences, and perspectives to inform its work.
- The ABP collaborates with other regulatory bodies, medical organizations, and professional societies to align accreditation and certification across the continuum from training through practice.
