COVID-19 Improvement Project Application Checklist
(Less Than 10 Physicians)

COVID-19 IMPROVEMENT PROJECT REQUIREMENTS:

- It sought to improve a known gap in quality, not acquire new knowledge.
- It had quantified goals within a specific time frame.
- Measures were used to track the progress of this QI project.
- De-identified, aggregated data was gathered over time to show the impact of interventions in this project (Pre/Post).
- Participation in this QI project's planning, execution, data review, and implementation of changes.

This application takes approximately 15 minutes to complete if you have the following elements on hand:

AIM STATEMENT:

- A gap you want to improve
- By how much
- By when

MEASURES AND DATA:

- Element(s) tracked through this project
- Goal for each
- Number of records used for this activity
- Baseline data
- Follow-up data
*Optional file upload

ATTESTATION: This will be required for each physician seeking credit.

- Intellectually engaged in planning and executing the project.
- Involved in implementing the project’s interventions (the changes designed to improve care).
- Regularly reviewed data in keeping with the project’s measurement plan.
- Collaborated actively by attending team meetings.
- Describe your individual involvement in the project.
- Understand credit will be awarded on the date the project was completed, if approved.

ABP GROUP CODE:

- If you are the first physician to submit a QI project to the ABP for MOC credit approval, a Group Code will be issued upon approval to enable other physicians (up to 10 total per project) to attest their meaningful participation in the project for MOC credit.
